

## Getting to the River

## By foot, step-free route (red route)

The red route is step-free, therefore we would recommend this route for pushchairs and any under 5 trikes or push bikes. Please take extra caution whilst walking along the Main Drive with passing cars. Spring Drive is a tarmac road down to the river, and as Cliveden is upon a chalk cliff, this drive is steep in places. We run an accessible shuttle bus service to the river subject to volunteer availability.

## By foot, shorter via steps (blue route)

All boats leave from the Boathouse at the river, about a 30 minute walk from the Information Centre. The route includes 172 rather steep steps, however this is a short route in distance and time than the red route.
